CLASSIC HAMPTONS

STANDARD INCLUSION - EXTERIOR

This style is inspired by the architecture and decorating influence of holiday homes in seaside locations along the eastern beaches of upstate New York's neighboring Long Island. It represents elegant but relaxed coastal living. Hamptons style is light and fresh and begins with classic architectural design features including timber panelling, high coffered or pitched ceilings with exposed beams and timber floors. Layered then with beautiful neutral and ocean inspired colours and natural materials this will always be one of the world's most popular styles.
