PENTHOUSE INTERIOR CONCEPT

The Penthouse Collection will translate and elevate design elements from the apartments. Intentional accents, exquisite details and considered joinery will create elegant spaces that are meant to be lived in.

Two interior schemes, utilising a combination of rough and textural finishes with sleek and refined elements to form the material palette.

The interior utilises contrasting natural materials and textures with cooler tones and artificial elements, exuding a sense of luxury and comfort.

Imagery is general in nature and provides a guide to the look and feel of the penthouse interiors. For specific specification, refer to the contract penthouse specifications. Customisation of the penthouse interiors is available upon request.

SCHEME ONE LIGHT

The Light Scheme is a timeless classic celebrating a sophisticated and natural palette of elegance and refined quality.

A careful selection of subtle greys, fluted glass, exquisite stone and timber flooring for a subtle look that will stand the test of time.

SCHEME TWO DARK

The Dark Scheme is a seductive creation of bold and contemporary materials tailored to impress the most distinguished of tastes.

Smokey greys contrasted with sleek stone benchtops and ash toned timber flooring exuding a sense of luxury and comfort.
